These classes are designed to address the developmental and educational needs of children turning three by October 1, 2022. Children will continue to develop their social skills and independence, as they work on school readiness skills. Learning experiences offered to the children revolve around interactive, engaging, hands-on activities. We bring reading, writing, music, movement, art and science together using books, songs, imaginary play, science experiments, cooking activities and art projects. As we offer the children new experiences, we expand vocabulary and add to their previous knowledge base.

One Certified Teacher and an Assistant with each class of 14 children
