

Christ Church Nursery School and Drop In Center Nut-Safe School Policy

To protect those with allergies, do not send any food with:
Peanuts or tree nuts (almonds, Brazil nuts, cashews, hazelnuts, pecans, pistachios or walnuts)

Read labels carefully! We also cannot serve any food with traces of peanuts/nuts or that were manufactured in a facility that processes products that contain peanuts/nuts

Thank you!

If your child has allergies, particularly food allergies, we will create an allergy kit for them that will include:

- Medication, unexpired, in original boxes (including Benadryl). For Epi-pens, we must have two, with the prescription included.
- An Allergy Action Plan*, completed by your child's doctor with specific information about when to administer medication and the dosage required.
- An Authorization to Administer Medication Form*, signed by a parent, that includes the exact same information that is included on the Allergy Action Plan

*These forms will have to be updated annually.
