This Pre-Kindergarten year is designed to address the developmental and educational needs of children who are turning four by October 1, 2022. Students forge further ahead into the world of learning and continue to develop school readiness skills. Learning center activities are offered to the children to assist them in increasing their attention span, reinforcing cognitive skills and introducing new concepts. Understanding the way young children learn best, we use play and interactive, engaging, hands-on experiences to make learning fun and meaningful to build their confidence and knowledge base.

One Certified Teacher and an Assistant with each class of 15-16 children
